The image displays a simulated app store listing for 'Bat Around'. It features a blue header with the app's icon and name, followed by a 'GET' button. Below are three promotional cards: 'Everybody hits' showing a player card, 'Baseball with more BAM™' showing a score of 4-11, and 'Connect with the ball and others' showing a player's stats.

1

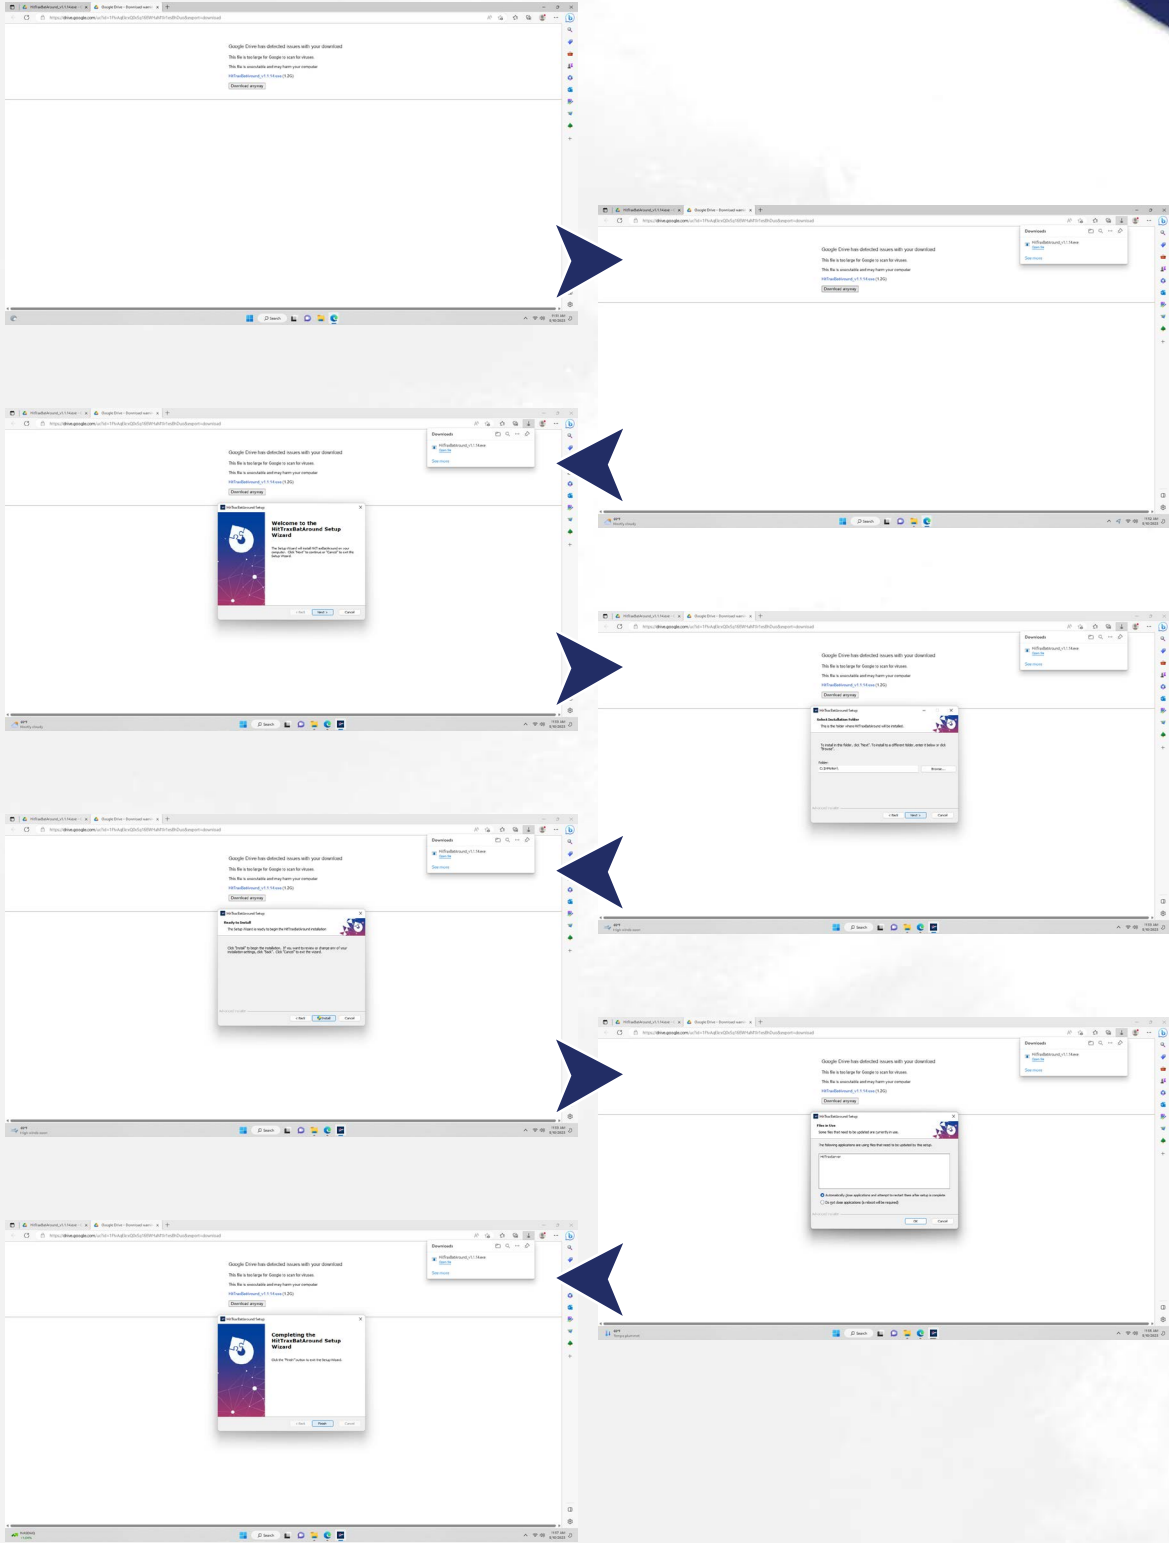

Start up the HitTrax computer system. Go to letsbataround.com/install to begin the download process.

SETUP GUIDE

2

Follow these steps to download Bat Around.

SETUP GUIDE

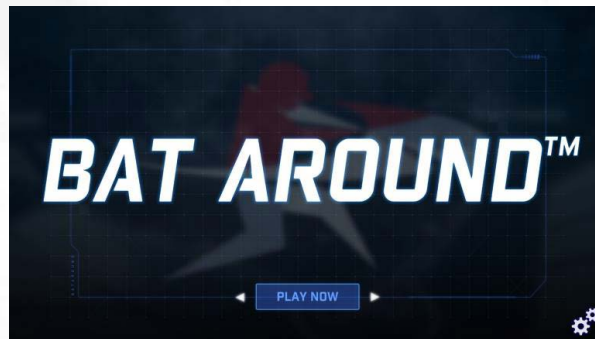

3

Once the update is installed, open the HitTrax Bat Around app on the desktop.

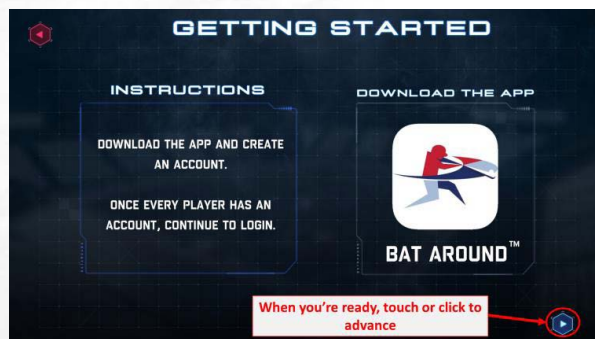

4

Click "Play Now" on the Bat Around startup window.

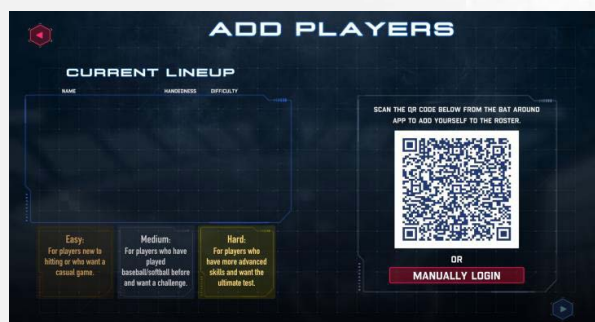

5

Open your Bat Around mobile app (on your phone or tablet) and follow the instructions to join the game.

6

At the "ADD PLAYERS" page, scan the QR code using the Bat Around mobile app. Each player should scan the code using their own mobile device. This will enter all players into the game. You can also manually log in with your username and password from an existing HitTrax account.

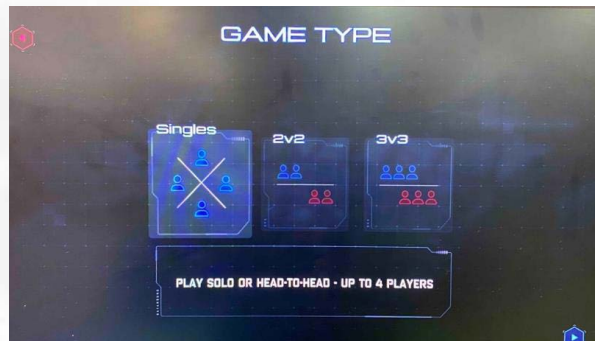

SETUP GUIDE

7

Confirm all players are added to the "Current Lineup" pane on the left, then select the batting "Handedness" (right-handed or left-handed) and the level of difficulty (Easy, Medium, Hard) for each player.

8

It's time to play! Bat Around can be played solo, 1v1, or up to 3v3 and will take hitters through six rounds of play. Each round includes six hits. Here you can also choose to name your team.

THE ROUNDS

Barrel it up and hit a line drive to center

Hit two balls to left, two to center and two to right

Go to work and move runners in various situations

Score runs in three minutes or three outs, whichever comes first

Just hit it hard

The dream scenario of bases loaded, two outs, bottom of the ninth

SETUP GUIDE

9

After the game, you can go to the Bat Around app to see your stats and enjoy the fun!
